## Independent Auditor's Report

To the Board of Directors  
The Dearborn Academy

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the major fund, and the remaining fund information of The Dearborn Academy (the "Academy") as of and for the year ended June 30, 2016 and the related notes to the financial statements, which collectively comprise the The Dearborn Academy's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the remaining fund information of The Dearborn Academy as of June 30, 2016 and the respective changes in its financial position for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

To the Board of Directors  
The Dearborn Academy

### ***Required Supplemental Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the major fund budgetary comparison schedule, the schedule of the Academy's contributions to the Michigan Public School Employees' Retirement System, and the schedule of the Academy's proportionate share of the net pension liability of the Michigan Public School Employees Retirement System, as identified on the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated October XX, 2016 on our consideration of The Dearborn Academy's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering The Dearborn Academy's internal control over financial reporting and compliance.

## **Management's Discussion and Analysis**

This section of The Dearborn Academy's (the "Academy") annual financial report presents our discussion and analysis of the Academy's financial performance during the year ended June 30, 2016. Please read it in conjunction with the Academy's financial statements, which immediately follow this section.

### **Using this Annual Report**

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand The Dearborn Academy financially as a whole. The government-wide financial statements provide information about the activities of the whole Academy, presenting both an aggregate view of the Academy's finances and a longer-term view of those finances. The fund financial statements provide the next level of detail. For governmental activities, these statements tell how services were financed in the short term as well as what remains for future spending. The fund financial statements look at the Academy's operations in more detail than the government-wide financial statements by providing information about the Academy's most significant fund - the General Fund, with the nonmajor Food Service Fund presented in one column as a nonmajor fund.

## Management's Discussion and Analysis (Continued)

### *Reporting the Academy as a Whole - Government-wide Financial Statements*

One of the most important questions asked about the Academy is, "As a whole, what is the Academy's financial condition as a result of the year's activities?" The statement of net position and the statement of activities, which appear first in the Academy's financial statements, report information on the Academy as a whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets and liabilities, using the accrual basis of accounting, which is similar to the accounting used by most private sector companies. All of the current year's revenue and expenses are taken into account regardless of when cash is received or paid. These two statements report the Academy's net position - the difference between assets and liabilities, as reported in the statement of net position - as one way to measure the Academy's financial health or financial position. Over time, increases or decreases in the Academy's net position - as reported in the statement of activities - are indicators of whether its financial health is improving or deteriorating. The relationship between revenue and expenses is the Academy's operating results. However, the Academy's goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other nonfinancial factors, such as the quality of the education provided and the safety of the schools, to assess the overall health of the Academy. The statement of net position and the statement of activities report the governmental activities for the Academy, which encompass all of the Academy's services, including instruction, support services, community services, athletics, and food services. Unrestricted state aid (foundation allowance revenue), and state and federal grants finance most of these activities.

### *Reporting the Academy's Most Significant Funds - Fund Financial Statements*

The Academy's fund financial statements provide detailed information about the most significant funds - not the Academy as a whole. Some funds are required to be established by state law. However, the Academy maintains another fund to help it control and manage money for particular purposes (the Food Service Fund). The governmental funds of the Academy use the following accounting approach:

**Governmental Funds** - All of the Academy's services are reported in governmental funds. Governmental fund reporting focuses on showing how money flows into and out of funds and the balances left at year end that are available for spending. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the operations of the Academy and the services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Academy's programs. We describe the relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds in a reconciliation.

# The Dearborn Academy

## Management's Discussion and Analysis (Continued)

### The Academy as a Whole

Recall that the statement of net position provides the perspective of the Academy as a whole. Table I provides a summary of the Academy's net position as of June 30, 2016 and 2015:

Table I

	Governmental Activities	
	June 30	
	2016	2015
	(in thousands)	
<b>Assets</b>		
Current and other assets	\$ 2,177.0	\$ 2,394.2
Capital assets	306.4	308.4
Total assets	2,483.4	2,702.6
<b>Deferred Outflows of Resources</b>	23.9	10.3
Total assets and deferred outflow of resources	2,507.3	2,712.9
<b>Liabilities</b>		
Current liabilities	780.7	757.8
Long-term liabilities	224.4	231.0
Total liabilities	1,005.1	988.8
<b>Deferred Inflow of Resources</b>	5.4	11.2
Total liabilities and deferred inflows of resources	1,010.5	1,000.0
<b>Net Position</b>		
Net investment in capital assets	306.4	308.4
Unrestricted	1,190.4	1,404.5
Total net position	<u>\$ 1,496.8</u>	<u>\$ 1,712.9</u>

The above analysis focuses on the net position (see Table I). The change in net position (see Table 2) of the Academy's governmental activities is discussed below. The Academy's net position was \$1.5 million at June 30, 2016. Capital assets totaling \$306,400 is the original cost less depreciation of the Academy's capital assets.

The \$1.2 million in unrestricted net position of governmental activities represents the accumulated results of all past years' operations. The unrestricted net position balance enables the Academy to meet working capital and cash flow requirements as well as to provide for future uncertainties. The operating results of the General Fund will have a significant impact on the change in unrestricted net position from year to year.

# The Dearborn Academy

## Management's Discussion and Analysis (Continued)

The results of this year's operations for the Academy as a whole are reported in the statement of activities (Table 2), which shows the changes in net position for fiscal years 2016 and 2015.

Table 2

	Governmental Activities	
	2016	2015
	(in thousands)	
<b>Revenue</b>		
Program revenue:		
Operating grants and contributions	1,396.0	1,461.6
General revenue:		
State foundation allowance	3,809.2	3,845.2
Other	16.6	5.3
Total revenue	<u>5,221.8</u>	<u>5,312.1</u>
<b>Functions/Program Expenses</b>		
Instruction	2,381.3	2,231.0
Support services	2,583.1	2,668.9
Athletics	31.1	30.2
Food services	405.1	426.7
Community services	12.2	9.5
Depreciaton (unallocated)	25.0	22.4
Total functions/program expenses	<u>5,437.8</u>	<u>5,388.7</u>
<b>Change in Net Position</b>	(216.0)	(76.6)
<b>Net Position - Beginning of year</b>	1,712.8	1,789.4
<b>Net Position - End of year</b>	<u>\$ 1,496.8</u>	<u>\$ 1,712.8</u>

As reported in the statement of activities, the cost of all of our governmental activities this year was \$5.4 million. Certain activities were partially funded by other governments and organizations that subsidized certain programs with grants and contributions (\$1.4 million). We paid for the remaining "public benefit" portion of our governmental activities with \$3.8 million in state foundation allowance and with our other revenue (i.e., interest and general entitlements).

The Academy experienced a decrease in net position of \$216,000. The key reasons for the change in net position was the decrease in state foundation allowance and grant revenue along with the increase in basic program instructional costs.

As discussed above, the net cost shows the financial burden that was placed on the State by each of these functions. Since unrestricted state aid constitutes the vast majority of the Academy's operating revenue sources, the board of directors and administration must annually evaluate the

# **The Dearborn Academy**

## **Management's Discussion and Analysis (Continued)**

needs of the Academy and balance those needs with state-prescribed available unrestricted resources.

### **The Academy's Funds**

As we noted earlier, the Academy uses funds to help it control and manage money for particular purposes. Looking at funds helps the reader consider whether the Academy is being accountable for the resources the State and others provide to it and may provide more insight into the Academy's overall financial health.

As the Academy completed this year, the governmental funds reported a combined fund balance of \$1.4 million, which has decreased from last year. The primary reasons for the change in fund balance was the decrease in federal source revenue along with the increase in basic program instructional costs.

General Fund fund balance is available to fund costs related to allowable school operating purposes.

### **General Fund Budgetary Highlights**

Over the course of the year, the Academy revises its budget as it attempts to deal with unexpected changes in revenue and expenditures. State law requires that the budget be amended to ensure that expenditures do not exceed appropriations. The final amendment to the budget was actually adopted just before year end. A schedule showing the Academy's original and final budget amounts compared with amounts actually paid and received is provided in the required supplemental information of these financial statements.

There were significant revisions made to the 2015-2016 General Fund original budget resulting from the Academy's revised operating plan due to the fluctuations in revenue and grant program activities.

### **Capital Assets and Debt Administration**

#### ***Capital Assets***

As of June 30, 2016, the Academy had \$306,400 invested in capital assets, which include a modular building, furniture, and equipment.

There were \$23,000 of additions to capital assets during the year for building improvements and equipment.

No major capital projects are planned for the 2016-2017 fiscal year. We present more detailed information about our capital assets in the notes to the financial statements.

#### ***Debt***

The Academy has no outstanding long-term debt at June 30, 2016. The Academy did reflect a long-term obligation relating to its operating lease, as discussed further in Note 7.

# **The Dearborn Academy**

## **Management's Discussion and Analysis (Continued)**

### **Economic Factors and Next Year's Budgets and Rates**

Our appointed officials and administration consider many factors when setting the Academy's 2016-2017 fiscal year budget. One of the most important factors affecting the budget is our student count. The State foundation revenue is determined by multiplying the blended student count by the foundation allowance per pupil. The blended count for the 2017 fiscal year is expected to be 10 percent and 90 percent of the February 2016 and October 2016 student counts, respectively. The 2017 budget was adopted in May 2016, based on an estimate of students that will be enrolled in September 2016. Approximately 77 percent of total General Fund revenue is from the foundation allowance. As a result, the Academy's funding is heavily dependent on the State's ability to fund local school operations. Based on early enrollment data at the start of the 2017 school year, we anticipate that the fall student count will be close to the estimates used in creating the 2017 budget. Once the final student count and related per-pupil funding are validated, state law requires the Academy to amend the budget if actual Academy resources are not sufficient to fund original appropriations.

Since the Academy's revenue is heavily dependent on State funding and the health of the State's School Aid Fund, the actual revenue received depends on the State's ability to collect revenue to fund its appropriation to academies. The State periodically holds a revenue-estimating conference to estimate revenue. If the State estimates funds are not sufficient to fund the appropriation, the legislature must revise the appropriation or proration of state aid will occur.

# The Dearborn Academy

## Governmental Funds Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position Year Ended June 30, 2016

**Fund Balance Reported in Governmental Funds** \$ 1,396,249

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and are not reported in the funds:

Cost of capital assets	\$ 600,372	
Accumulated depreciation	<u>(294,000)</u>	306,372

Deferred outflows related to pension investment returns and changes in assumptions are not reported in the governmental funds 10,468

Deferred outflows related to pension payments made subsequent to the measurement date 13,420

Long-term liabilities are not due and payable in the current period and are not reported in the governmental funds - Accrued lease expense due to straight-line amortization of lease payments (48,158)

Deferred inflows related to revenue in support of pension contributions made subsequent to measurement date are not reported in the governmental funds (4,768)

Net pension obligations do not present a claim on current financial resources and are not reported as fund liabilities (176,217)

Deferred inflows related to pension investment returns and changes in assumptions are not reported in the governmental funds (584)

**Net Position of Governmental Activities** **\$ 1,496,782**

# The Dearborn Academy

## Governmental Funds Statement of Revenue, Expenditures, and Changes in Fund Balances Year Ended June 30, 2016

	General Fund	Nonmajor Food Service Fund	Total Governmental Funds
<b>Revenue</b>			
Local sources	\$ 16,550	\$ 6,243	\$ 22,793
State sources	4,222,601	12,344	4,234,945
Federal sources	582,268	387,053	969,321
Total revenue	4,821,419	405,640	5,227,059
<b>Expenditures</b>			
Current:			
Instruction	2,381,343	-	2,381,343
Support services	2,613,949	-	2,613,949
Athletics	31,118	-	31,118
Food services	-	405,640	405,640
Community services	12,163	-	12,163
Capital outlay	23,033	-	23,033
Total expenditures	5,061,606	405,640	5,467,246
<b>Net Change in Fund Balances</b>	(240,187)	-	(240,187)
<b>Fund Balances - Beginning of year</b>	1,636,436	-	1,636,436
<b>Fund Balances - End of year</b>	<b>\$ 1,396,249</b>	<b>\$ -</b>	<b>\$ 1,396,249</b>

# The Dearborn Academy

## **Governmental Funds Reconciliation of the Statement of Revenue, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended June 30, 2016**

<b>Net Change in Fund Balances - Total Governmental Funds</b>	<b>\$ (240,187)</b>
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures; however, in the statement of activities, these costs are allocated over their estimated useful lives as depreciation:	
Depreciation expense	\$ (25,022)
Capitalized capital outlay	<u>23,033</u>
	(1,989)
Reduction to building rent expense for government-wide statement of activities not recorded in the governmental funds	30,158
Revenue in support of pension contributions made subsequent to measurement date	(4,768)
Change in pension expense related to deferred items	<u>716</u>
<b>Change in Net Position of Governmental Activities</b>	<b><u>\$ (216,070)</u></b>

# The Dearborn Academy

## Notes to Financial Statements June 30, 2016

### Note I - Nature of Business and Significant Accounting Policies

The accounting policies of the The Dearborn Academy (the "Academy") conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the Academy:

#### **Reporting Entity**

The Academy was formed as a charter school academy pursuant to the Michigan School Code of 1976, as amended by Act No. 362 of the Public Acts of 1993 and Act No. 416 of the Public Acts of 1994. The Academy provides education for students in grades K through 8.

In July 2007, the Academy entered into a five-year contract with Central Michigan University to charter a public school academy, which has been extended through June 30, 2018. The contract requires the Academy to act exclusively as a governmental agency and not undertake any action inconsistent with its status as an entity authorized to receive State School Aid funds pursuant to the State Constitution.

The Central Michigan University Board of Trustees is the fiscal agent for the Academy and is responsible for overseeing the Academy's compliance with the contract and all applicable laws. The Academy pays the Central Michigan University Board of Trustees 3.0 percent of state aid foundation allowance as administrative fees. The total administrative fees for the year ended June 30, 2016 were approximately \$110,000.

The accompanying basic financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational or financial relationships with the Academy. Based on the application of the criteria, the entity does not contain component units.

#### **Government-wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the Academy. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by intergovernmental revenue, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All of the Academy's government-wide activities are considered governmental activities.

### **Note I - Nature of Business and Significant Accounting Policies (Continued)**

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenue includes grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Intergovernmental payments and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

#### **Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

**Government-wide Financial Statements** - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants, categorical aid, and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

When an expense is incurred for purposes for which both restricted and unrestricted net position or fund balance are available, the Academy's policy is to first apply restricted resources. When an expense is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, it is the Academy's policy to spend funds in this order: committed fund balance, assigned fund balance, and unassigned fund balance.

Amounts reported as program revenue include operating grants and contributions. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all unrestricted state aid.

### **Note I - Nature of Business and Significant Accounting Policies (Continued)**

**Fund Financial Statements** - Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. Revenue not meeting this definition is classified as a deferred inflow of resources. For this purpose, the Academy considers revenue to be available if it is collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Unrestricted state aid, intergovernmental grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the Academy.

The Academy reports the following major governmental fund:

**General Fund** - The General Fund is the Academy's primary operating fund. It accounts for all financial resources of the Academy, except those required to be accounted for in another fund.

Additionally, the Academy reports the following fund type:

**Special Revenue Fund** - Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted to expenditure for specified purposes. The Academy's Special Revenue Fund is the Food Service Fund. Revenue sources for the Food Service Fund are derived primarily from grants received from state and federal sources. Any operating deficit generated by these activities is the responsibility of the General Fund.

#### **Assets, Liabilities, and Net Position or Equity**

**Cash** - Cash includes cash on hand and demand deposits.

**Receivables** - In general, outstanding balances between funds are reported as "due to/from other funds." Receivables are shown net of an allowance for uncollectible amounts. The Academy considers all accounts receivable to be fully collectible; accordingly, no allowance for uncollectible amounts is recorded.

# The Dearborn Academy

## Notes to Financial Statements June 30, 2016

### Note 1 - Nature of Business and Significant Accounting Policies (Continued)

**Prepaid Costs and Other Assets** - Certain payments to vendors and security deposits reflect costs applicable to future fiscal years and deposits that the Academy is eligible to receive when leases expire. These are recorded as prepaid costs and other assets in both the government-wide and fund financial statements.

**Capital Assets** - Capital assets are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the Academy as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Costs of normal repair and maintenance that do not add to the value or materially extend asset life are not capitalized. The Academy does not have infrastructure-type assets.

Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and building additions	10 - 29 years
Furniture and other equipment	7 - 20 years

**Long-term Obligations** - In the academy-wide financial statements, long-term obligations related to rent agreements subject to straight-line amortization are reported as liabilities in the statement of net position.

**Deferred Outflows/Inflows of Resources** - In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Academy only has one item that qualifies for reporting in this category. It is the deferred outflow related to the pension plan.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows at June 30, 2016 include amounts for funding received through state appropriations for contributions to the MPSERS pension plan after the measurement date of \$4,768 and amounts related to the pension plan of \$584 (Note 9).

### **Note I - Nature of Business and Significant Accounting Policies (Continued)**

**Fund Balance** - Fund balance classifications comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds. Under this standard, the fund balance classifications are comprised of the following - nonspendable, restricted, committed, assigned, and unassigned.

In the fund financial statements, governmental funds report the following components of fund balance:

- **Nonspendable:** Amounts that are not in spendable form or are legally or contractually required to be maintained intact
- **Restricted:** Amounts that are legally restricted by outside parties, constitutional provisions, or enabling legislation for use for a specific purpose
- **Committed:** Amounts that have been formally set aside by the board of directors for use for specific purposes. Commitments are made and can be rescinded only via resolution of the board of directors.
- **Assigned:** Intent to spend resources on specific purposes expressed by the board of directors
- **Unassigned:** Amounts that do not fall into any other category above. This is the residual classification for amounts in the General Fund and represents fund balance that has not been assigned to other funds and has not been restricted, committed, or assigned to specific purposes in the General Fund. In other governmental funds, only negative unassigned amounts are reported, if any, and represent expenditures incurred for specific purposes exceeding the amounts previously restricted, committed, or assigned to those purposes.

**Use of Estimates** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

**Comparative Data** - Comparative data is not included in the Academy's financial statements.

# The Dearborn Academy

## Notes to Financial Statements June 30, 2016

### Note 1 - Nature of Business and Significant Accounting Policies (Continued)

**Pensions** - For the purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Michigan Public School Employees' Retirement System (MPERS) and additions to/deductions from MPERS fiduciary net position have been determined on the same basis as they are reported by MPERS. MPERS uses the economic resources measurement focus and the full accrual basis of accounting. Contribution revenue is recorded as contributions are due, pursuant to legal requirements. Benefit payments (including refunds of employee contributions) are recognized as expense when due and payable in accordance with the benefit terms. Related plan investments are reported at fair value.

### Note 2 - Stewardship, Compliance, and Accountability

**Budgetary Information** - Annual budgets are adopted on a basis consistent with generally accepted accounting principles and state law for the General Fund and Food Service Fund. All annual appropriations lapse at fiscal year end.

The budget document presents information by fund and function. The legal level of budgetary control adopted by the governing body (i.e., the level at which expenditures may not legally exceed appropriations) is the function level. Expenditures in excess of amounts budgeted are a violation of Michigan law. State law permits academies to amend their budgets during the year. During the year, the budget was amended in a legally permissible manner. The Academy adjusted budgeted amounts during the year in response to actual and projected activity.

Encumbrance accounting is employed in governmental funds. Amounts encumbered for purchase orders, contracts, etc. are not tracked during the year. Budget appropriations are considered to be spent once the goods are delivered or the services rendered.

**Excess of Expenditures Over Appropriations in Budgeted Funds** - During the year, the Academy incurred expenditures in the General Fund in excess of amounts budgeted. Capital outlay expenditures are included in the functional categories to which they relate in accordance with the adopted budget of the School District. Capital outlay is presented separately on the statement of revenue, expenditures, and changes in fund balances. The significant variances are as follows:

	<u>Budget</u>	<u>Actual</u>
Instruction - Basic programs	\$ 1,370,765	\$ 1,499,616
Support - Instructional staff	237,131	402,543

### Note 3 - Deposits and Investments

State statutes and the Academy's investment policy authorize the Academy to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The Academy is allowed to invest in U.S. Treasury or agency obligations, U.S. government repurchase agreements, bankers' acceptances, commercial paper rated prime at the time of purchase that matures not more than 270 days after the date of purchase, mutual funds, and investment pools that are composed of authorized investment vehicles. The Academy's deposits are in accordance with statutory authority.

The Academy has designated one bank for the deposit of its funds.

The investment policy adopted by the board of directors in accordance with state statutes has authorized investment in bonds and securities of the United States government; agency obligations of the State; certificates of deposit issued by financial institutions organized and authorized to operate in this state; commercial paper rated prime 1 or prime 2 at the time of purchase and maturing not more than 270 days after the date of purchase; and Michigan Investment Liquid Asset Fund Plus (MILAF) investment pools, but not the remainder of state statutory authority as listed above.

The Academy's cash is subject to several types of risk, which are examined in more detail below:

**Custodial Credit Risk of Bank Deposits** - Custodial credit risk is the risk that in the event of a bank failure, the Academy's deposits may not be returned to it. The Academy's investment policy requires that financial institutions be evaluated and only those with an acceptable risk level are used for the Academy's deposits for custodial credit risk. At year end, the Academy's deposit balance of \$1,290,605 included \$1,040,605 of bank deposits (checking and savings accounts) that were uninsured and uncollateralized. The Academy believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the Academy evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

### Note 4 - Unavailable/Unearned Revenue

Governmental funds report unavailable revenue in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds also report unearned revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, the Academy had unearned revenue of \$355 for grant payments received prior to meeting all eligibility requirements.

# The Dearborn Academy

## Notes to Financial Statements June 30, 2016

### Note 5 - Capital Assets

Capital asset activity of the Academy's governmental activities was as follows:

<b>Governmental Activities</b>	Balance July 1, 2015	Additions	Disposals	Balance June 30, 2016
Capital assets:				
Buildings and building improvements	\$ 490,028	\$ 15,920	\$ -	\$ 505,948
Furniture and equipment	87,311	7,113	-	94,424
Total capital assets	577,339	23,033	-	600,372
Accumulated depreciation:				
Buildings and building improvements	213,837	19,411	-	233,248
Furniture and equipment	55,141	5,611	-	60,752
Total accumulated depreciation	268,978	25,022	-	294,000
Net capital assets	\$ 308,361	\$ (1,989)	\$ -	\$ 306,372

Depreciation expense was not charged to activities, as the Academy considers its assets to impact multiple activities and allocation is not practical.

### Note 6 - Operating Lease

The Academy has entered into an operating lease agreement for its facility. The lease expires on June 30, 2017 and contains five successive options to renew for an additional five years each after the expiration. Total payments for such lease were \$486,000 for the current year. The Academy recognized an ending liability of \$48,158 for deferred rent on this lease. Lease payments totaling \$504,000 are due during the year ended June 30, 2017.

### Note 7 - Risk Management

The Academy is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. Employee-related claims for management company staff are covered by insurance policies held by the management company. The Academy has purchased commercial insurance for all other claims. There have been no claims brought against the Academy during the year ended June 30, 2016.

# The Dearborn Academy

## Notes to Financial Statements June 30, 2016

### Note 8 - Management Agreement

In July 1997, the Academy entered into a management agreement with a for-profit corporation. The management company is responsible for substantially all of the management, operation, administration, education, and food services at the Academy. The Academy subcontracts most employees from the management company and reimburses the management company for operating costs. A majority of the accounts payable balance at June 30, 2016 is owed to the management company. The operating costs charged to the Academy by the management company were approximately \$4,293,000 for the year ended June 30, 2016. The agreement is in effect through June 30, 2018.

### Note 9 - Michigan Public School Employees' Retirement System

**Plan Description** - The Academy participates in the Michigan Public School Employees' Retirement System (MPSERS or System), a statewide, cost-sharing, multiple-employer defined benefit public employee retirement system governed by the State of Michigan that covers substantially all employees of the Academy. The System provides retirement, survivor, and disability benefits to plan members and their beneficiaries. The System also provides postemployment healthcare benefits to retirees and beneficiaries who elect to receive those benefits.

The Michigan Public School Employees' Retirement System issues a publicly available financial report that includes financial statements and required supplemental information for the pension and postemployment healthcare plans. That report is available on the web at <http://www.michigan.gov/orsschools>, or by writing to the Office of Retirement System (ORS) at 7150 Harris Drive, P.O. Box 30171, Lansing MI 48909.

**Contributions** - Public Act 300 of 1980, as amended, required the Academy to contribute amounts necessary to finance the coverage of pension benefits of active and retired members. Contribution provisions are specified by State statute and may be amended only by action of the State Legislature. Under these provisions, each school district's contribution is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance a portion of the unfunded accrued liability.

The Academy's contributions are determined based on employee elections. There are seven different benefit options included in the plan available to employees based on date of hire. Contribution rates are adjusted annually by the ORS.

The range of rates are as follows:

**School District**

October 1, 2014 - September 30, 2015	18.76% - 23.07%
October 1, 2015 - June 30, 2016	14.56% - 18.95%

### **Note 9 - Michigan Public School Employees' Retirement System (Continued)**

Depending on the plan selected, plan member contributions range from 0 percent up to 7.0 percent of gross wages. Plan members electing into the defined contribution plan are not required to make additional contributions.

The Academy's required and actual contributions to the plan for the years ended June 30, 2016 was \$16,930. The Academy required and actual contributions include an allocation of \$4,768 of revenue received from the State of Michigan, and remitted to the system, to fund the MPERS Unfunded Actuarial Accrued Liability (UAAL) Stabilization Rate for the year ended June 30, 2016.

**Benefits Provided** - Benefit provisions of the defined benefit pension plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit (DB) pension plan.

Depending on the plan option selected, member retirement benefits are calculated as final average compensation times years of service times a pension factor ranging from 1.25 percent to 1.50 percent. The requirements to retire range from attaining the age of 46 to 60 with years of service ranging from 5 to 30 years, depending on when the employee became a member. Early retirement is computed in the same manner as a regular pension, but is permanently reduced 0.50 percent for each full and partial month between the pension effective date and the date the member will attain age 60. There is no mandatory retirement age.

Members are eligible for non-duty disability benefits after 10 years of service and for duty-related disability benefits upon hire. Disability retirement benefits are determined in the same manner as retirement benefits but are payable immediately without an actuarial reduction. The disability benefits plus authorized outside earnings are limited to 100 percent of the participant's final average compensation with an increase of 2 percent each year thereafter.

Benefits may transfer to a beneficiary upon death and are determined in the same manner as retirement benefits, but with an actuarial reduction.

Benefit terms provide for annual cost-of-living adjustments to each employee's retirement allowance subsequent to the employee's retirement date. The annual adjustment, if applicable, is 3 percent. For some members who do not receive an annual increase, they are eligible to receive a supplemental payment in those years when investment earnings exceed actuarial assumptions.

# The Dearborn Academy

## Notes to Financial Statements June 30, 2016

### Note 9 - Michigan Public School Employees' Retirement System (Continued)

**Net Pension Liability, Deferrals, and Pension Expense** - At June 30, 2016, the Academy reported a liability of \$176,217 for its proportionate share of the net pension liability. The net pension liability was measured as of September 30, 2015 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of September 30, 2014, which used update procedures to roll forward the estimated liability to September 30, 2015. The Academy's proportion of the net pension liability was based on a projection of its long-term share of contributions to the pension plan relative to the projected contributions of all participating reporting units, actuarially determined. At September 30, 2015, the Academy's proportion was 0.000721 percent.

For the year ended June 30, 2016, the Academy recognized pension expense of \$16,302 exclusive of payments to fund the MPSERS UAAL Stabilization Rate. At June 30, 2016, the Academy reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows Resources
Difference between expected and actual experience	\$ -	\$ 584
Changes of assumptions	4,339	-
Net difference between projected and actual earnings on pension plan assets	899	-
Changes in proportion and differences between the Academy's contributions and proportionate share of contributions	5,230	-
The Academy's contributions subsequent to the measurement date	13,420	-
Total	<u>\$ 23,888</u>	<u>\$ 584</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

# The Dearborn Academy

## Notes to Financial Statements June 30, 2016

### Note 9 - Michigan Public School Employees' Retirement System (Continued)

Years Ending June 30	Amount
2017	\$ 1,902
2018	1,902
2019	1,667
2020	4,413
2021	-
Thereafter	-
Total	<u>\$ 9,884</u>

In addition, the contributions subsequent to the measurement date will be included as a reduction of the net pension liability in the next year.

**Actuarial Assumptions** - The total pension liability as of September 30, 2015 is based on the results of an actuarial valuation date of September 30, 2014 and rolled forward:

Actuarial cost method	Entry age normal cost actuarial cost method
Investment rate of return	7.00 to 8.00 percent, net of investment expenses based on the groups
Salary increases	3.50 - 12.3%, including wage inflation of 3.5%
Mortality basis	RP2000 Combined Healthy Mortality Table, adjusted for mortality improvements to 2025 using projection scale BB
Cost of living pension adjustments	3% annual non-compounded for MIP members

The actuarial assumptions used for the September 30, 2014 valuation were based on the results of an actuarial experience study for the period from October 1, 2007 to September 30, 2012. As a result of this study, the actuarial assumptions were adjusted to more closely reflect actual experience.

### Note 9 - Michigan Public School Employees' Retirement System (Continued)

**Discount Rate** - The discount rate used to measure the total pension liability was 7.00-8.00 percent depending on the plan option. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions will be made at contractually required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Investment Category</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Domestic equity pools	28.0 %	5.9 %
Private equity pools	18.0 %	9.2 %
International equity pools	16.0 %	7.2 %
Fixed-income pools	10.5 %	0.9 %
Real estate and infrastructure pools	10.0 %	4.3 %
Real return, opportunistic, and absolute pool	15.5 %	6.0 %
Short-term investment pools	2.0 %	- %
Total	<u>100.0 %</u>	

# The Dearborn Academy

## Notes to Financial Statements June 30, 2016

### Note 9 - Michigan Public School Employees' Retirement System (Continued)

**Sensitivity of the Net Pension Liability to Changes in the Discount Rate** - The following presents the net pension liability of the Academy calculated using the discount rate of 7.00-8.00 percent, depending on the plan option. The following also reflects what the Academy's net pension liability would be if it were calculated using a discount rate that is 1.00 percentage point lower (6.0 - 7.0 percent) or 1.00 percentage point higher (8.0 - 9.0 percent) than the current rate:

1.00 Percent Decrease (6.0 - 7.0 Percent)	Current Discount Rate (7.0 - 8.0 Percent)	1.00 Percent Increase (8.0 - 9.0 Percent)
\$ 227,189	\$ 176,217	\$ 133,245

**Pension Plan Fiduciary Net Position** - Detailed information about the pension plan's fiduciary net position is available in the separately issued MPSERS financial report.

**Payable to the Pension Plan** - At June 30, 2016, the Academy reported a payable of \$867 for the outstanding amount of contributions to the pension plan required for the year ended June 30, 2016.

**Postemployment Benefits Other Than Pensions (OPEB)** - Under the MPSERS act, all retirees participating in the MPSERS pension plan have the option of continuing health, dental, and vision coverage through MPSERS. Retirees electing this coverage contribute an amount equivalent to the monthly cost for Part B Medicare and 10 percent, or 20 percent for those not Medicare eligible, of the monthly premium amount for the health, dental, and vision coverage at the time of receiving the benefits. The MPSERS board of trustees annually sets the employer contribution rate to fund the benefits on a pay-as-you-go basis. Participating employers are required to contribute at that rate. The employer contribution rate ranged from 2.2 percent to 2.71 percent of covered payroll for the period from July 1, 2015 to September 30, 2015 and from 6.4 percent to 6.83 percent of covered payroll for the period from October 1, 2015 through June 30, 2016 dependent upon the employee's date of hire and plan election as noted above. Members can choose to contribute 3 percent of their covered payroll to the Retiree Healthcare Fund and keep this premium subsidy benefit or they can elect not to pay the 3 percent contribution and instead choose the Personal Healthcare Fund, which can be used to pay healthcare expenses in retirement. Members electing the Personal Healthcare Fund will be automatically enrolled in a 2 percent employee contribution into their 457 account as of their transition date and create a 2 percent employer match into the employee's 403B account.

### **Note 9 - Michigan Public School Employees' Retirement System (Continued)**

The Academy's required and actual contributions to the plan for retiree healthcare benefits for the years ended June 30, 2016, 2015, and 2014 were \$3,531, \$2,180, and \$3,603, respectively. In addition, a portion ranging from 35-100 percent of the the MPSERS Unfunded Actuarial Accrued Liability (UAAL) Stabilization Rate is considered a contribution to the retiree healthcare plan.

### **Note 10 - Upcoming Accounting Pronouncements**

In June 2015, the GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, which addresses reporting by governments that provide postemployment benefits other than pensions (OPEB) to their employees and for governments that finance OPEB for employees of other governments. This OPEB standard will require the Academy to recognize on the face of the financial statements its proportionate share of the net OPEB liability related to its participation in the MPSERS plan. The statement also enhances accountability and transparency through revised note disclosures and required supplemental information (RSI). The Academy is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for the Academy's financial statements for the year ending June 30, 2018.

## **Required Supplemental Information**
